

HS24.18

Full Batten

HS SYSTEMS

It has been **designed for the mast head**, by simply pulling the halyard for a few centimeters, the carriage moves up, the hook is automatically disengaged and the carriage is free to descend. Therefore, even in the event of breakage of the line that frees the hook, the sail can be lowered

Technical characteristics**Length (L)****423 mm****Track dimensions****HS24 (24 × 16 mm)****Material****Aluminium**
