

C260 - Headsail manual furler - Max forestay dia: 5 mm

Part #C260

Description

The C260 is manual furling system with self-contained halyard. Especially designed for boats 5 to 7m, the C260 is cost-effective, easy to install on the existing forestay. It does not require any maintenance. As all the Profurl manual reefing systems, the C260 benefits from a 10 year warranty.

Components

This product includes a drum, a complete set of extrusions and a sheave box
