

C290 - Headsail manual furler - Max forestay dia: 6/7 mm

Part #C290

Description

The C290 is a manual headsail furler from the Profurl Cruising range. It is designed for boats ranging from 7 to 9 meters with a maximum forestay diameter of 6.35 mm (#10 in rod). It features colorless anodized round extrusions and a turnbuckle cylinder. Its adjustable tack point also allows for below the deck installation. It comes with a 10-year warranty.

Components

This product includes a drum, a complete set of grey rounded extrusions, a swivel and a turnbuckle cylinder. As a standard, it is delivered with short link plates
