

NDE2C350 - Electric furler - Max forestay dia: 8/10 mm

Part #NDE2C350

Description

All Profurl motorized furlers have been developed to bring you comfort, reliability & safety.

For sailing boats from 11 to 15m, Profurl has developed an engine power system (multi-motor) that make furlers more economic and compact to gain space on the deck.

Components

This product includes a motorization kit, a complete set of grey rounded extrusions, a swivel and a turnbuckle cylinder. As a standard, it is delivered with link plates and toggle as well as a relay box and a circuit breaker

Technical information

Sailing program	Cruising	Circuit breaker (A)	60A / 30A
Boat length (m)	From 11 to 13,50 m	Optimal rotation speed (rpm)	40
Sails type	Genoa, solent,	Optimal torque (Nm)	45 / 115 Nm
Structural system	No	Max forestay dia (mm)	8/10*
Partial furling of the sail	Yes	Standard length (m)	14
Motorization type	Electric	Extrusion length (m)	2
Engine type		Warranty	2 years
Power (W)	400	Accessories	Wired remote controller Part # 53320 - Radio remote controller Part # P53310
Power supply (V)	12 / 24
