

NDE2C420 - Electric furler - Max forestay dia: 10/12.7 mm

Part #NDE2C420

Description

All Profurl motorized furlers have been developed to bring you comfort, reliability & safety.

For sailing boats from 11 to 15m, Profurl has developed an engine power system (multi-motor) that make furlers more economic and compact to gain space on the deck.

Components

This product includes a motorization kit, a complete set of grey rounded extrusions, a swivel and a turnbuckle cylinder. As a standard, it is delivered with link plates and toggle as well as a relay box and a circuit breaker

Technical information

Sailing program	Cruising	Circuit breaker (A)	60A / 30A
Boat length (m)	From 13 to 15 m	Optimal rotation speed (rpm)	55
Sails type	Genoa, solent	Optimal torque (Nm)	55 / 135 Nm
Structural system	No	Max forestay dia (mm)	10 / 12.7*
Partial furling of the sail	Yes	Standard length (m)	16
Motorization type	Electric	Extrusion length (m)	2
Engine type		Warranty	2 years
Power (W)	800	Accessories	Wired remote controller Part # 53320 - Radio remote controller Part # P53310
Power supply (V)	12 / 24
