

NEXI.5 - Working load: 1500 Kg - Max sail area: 60 m²

Part #NEX1.5

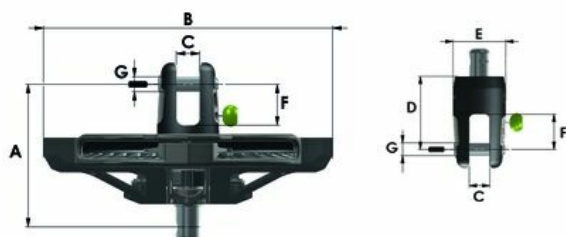

Description

The NEX flying sail furler is available with many innovations and technological improvements. These innovations, resulting from our expertise gained since the launch of the first version of the NEX in 2010 will bring you even more performance, safety and comfort when sailing. Its range of 7 models covers all sizes of sails (up to 350m²) and enables it to equip boats of more than 80'.

Components

This product includes one spool, one swivel, one snap shackle, one D shackle

Technical information

Sailing program	Cruising, racing, offshore racing	Lower terminal	Clevis pin snap shackle
Light sail area (m ²)	80	Warranty	3 years
Storm sail area (m ²)	30	Options available	Eye, MXEVO halyard shackle, solidsheave, fairlead snap shackle
Structural system	No	A (mm)	81.1
Partial furling of the sail	No	B (mm)	160
Ratchet	Yes	C (mm)	15
Working load	1500	D (mm)	56.2
Spool diameter (mm)	150	E (mm)	34
Pin diameter (mm)	8	F (mm)	22
Furling line diameter (mm)	8	G (mm)	8
Upper terminal	D shackle
