

Furl Assist ratchet - For NEX2.5 flying sail furler

Part #P592541

Description

FurlAssist ratchet features offer intuitive and safe assistance for furling. The FURLASSIST ratchet function is a real plus for your manoeuvres allowing:

- Better control of furling avoiding accidental unfurling of the sail
- Reliable furling due to the permanent engagement of the pawl
- Safety: it only unlocks when hauling in the line fast
- Simplicity: operates in both directions and without additional line
- Easy installation and removal (2 screws)
