

NEX4.O swivel lock - for flying sails

Part #P594035

Description

A comprehensive range of swivel locks with proven reliability for many years. The Profurl swivel locks enable to hook (or lock) the headsail but also to furl it. Tested at sea during the last 2 Vendée Globe editions - including the victory of Maitre Coq in 2022. The Profurl swivel locks are in growing demand on fast cruising boats.

Technical description

Benefits of the Profurl swivel lock :

- Easy to use
- Proven reliability
- Easy furling manoeuvres
- Increased performance of the boat
- Compact and light
- Release of halyard tension
- Ideal for short hand crews

Components

One male part and one hook body
